Playing it Safe
Beware of rough surf conditions, strong ocean currents, and stinging jellyfish when swimming, wading, or surfing. Carry ample drinking water; protect yourself from the bright sun and biting insects. Thunderstorms with abundant lightning are common in summer; wait out storms in your vehicle or under shelter, but do not stand under trees.

Fishing
Freshwater, saltwater, and commercial fishing are subject to size and possession limits and may require a license or special use permit; inquire at information centers.

Boating
Launch sites in the Refuge and Seashore provide access to Mosquito Lagoon and Indian River. Airboats are prohibited.
