

COUNTDOWN T MINUS 10...987654321

A MURAL'S STORY....

8. We found an old sign from a while ago, 'Welcome to Titusville, Gateway to the Indian River' and thought "what better way to start our countdown thinking of rock shrimp, oranges and fishing all-nighters on the pier

7. In 1963 NASA chooses this area for its space program and creates the Merritt Island National Wildlife Refuge. A true gem symbolized by an alligator key chain.

6. We were visited by President F.D. Roosevelt. He would revisit countless times as a postage stamp, sorted through the very walls this mural will be painted on. A Monkey reminds us of another brush with fame which gave us the lore of the "Monkeys of the Emerald Forest". Johnny Weissmuller of 1930-40 Tarzan fame once had his "Tropical Wonderland Theme Park" here.

5. There is a charm to architecture. Ghosts of Col. Titus and his Dixie Hotel can still be seen if you stare long enough. Echo's of children ring through the shadows once stood the old school house.

4. We are the community which acts as the welcoming committee to the most beautiful beach in the world ... Canaveral National Seashore's Playalinda Beach.

3. A proud history or strange event? Legend or lore? a name chosen over a game of dominoes? Hidden here is the date of that game which gave Titusville its name. Want a clue? Let a smile be your guide.

2. It is written we were raised under the rocket's red glare. There is a cadence, a long march of missions and projects, grand achievements and great loss ... We represent a human aspect with a mission badge

1. In the ebb and flow of time we launch our time capsule. Our final image before liftoff is the shuttle Atlantis. She will fly a million miles to make Titusville her home ...

Space and Time Capsule

Location: Former 'Astronaut Trail' Post Office
5 Main Street. Titusville, FL 32796

Artist: Terrence L Cope

Sponsor: Reva Harris, Brevard Real Estate

Mural Size: 9' x 7'

**WE HAVE
LIFT-OFF**

Trivia Fun 3-2-1

It is interesting trivia about our 321 area code. There was a conscious effort to acquire this number to pay tribute to the heritage of space travel ... the last numbers of the famous countdown to lift off. Embedded in each mural will be these numbers ... 3 ... 2 ... 1 like a treasure hunt.
