Chairman's Message - Buck Cowen

Hello, Fellow Gardeners...When you receive this monthly bulletin I hope you had a wonderful Thanksgiving! Our Tree Farm is a very nice place and you should be proud of yourselves for making it so. We are at a slow growth season so we should be able to catch up some. I know this is really not the time to trim but we should start getting ready for the spring sale. I challenge all to bring ideas to the meetings to make things better. For the most part our plants look good, but there some that don't look great. I hope everyone had a great Thanksgiving and trust you are preparing for a fantastic Christmas season! Sooo..., I'll see you at the meeting and Pot Luck Dinner on December 11th and/or the Farm! Just me, Buck

DECEMBER IN THE GARDEN

December is normally a dry month with about 2 inches of rain. While we may have heavy dew, lawns will still require about ½ inch of rain or irrigation each week. AZALEAS and CAMELLIAS can suffer bud drop later if not watered as needed

Temperatures during December should have average lows in the low 50's and highs in the 60's and 70's. Night low temperatures may occasionally be in the 40's or even 30's with the possibility of frost or, although infrequent, even a freeze when a cold front moves through. **Make sure the ground is moist before a frost or a freeze.** Be prepared to move ORCHIDS and other cold sensitive plants indoors or provide protection when cold temperatures are predicted.

If not already done, December is the time to cover greenhouses, lath and shade houses with plastic for the winter. Clear 4 to 6 mil polyethylene film provides an inexpensive cover. Check heaters or plan for heating if you expect to protect plants during infrequent freeze periods. Check those plants you bring inside for mites, mealy bugs and other pests.

This is a good month to add or transplant trees, shrubs and other plants and to divide perennials. Because of the cool weather, water loss through foliage will be low and above ground new growth minimal. Start flower and Papaya transplants.

Continue fertilizing hardy annuals and container grown plants monthly. Discontinue fertilizing other outdoor plants except vegetables. Delay any major pruning until after winter. Renew mulch where needed.

Clean, oil and repair garden equipment. Drain gas tanks, change oil, clean and lubricate idle garden equipment and engines. Sharpen and paint tools for next year's use. A bucket of dry sand mixed with a quart of used motor oil makes an excellent long-lasting cleaning device for shovels, trowels and other similar tools. Just push the tool into the sand several times after each use. Hardy annuals that will provide color in your yard and survive our normal winter cold include ALYSSUM, CALENDULA, CLEOME, DIANTHUS, PANSY,

PETUNIA, PHLOX, SALVIA, SNAPDRAGON and VERBENA. Remove faded blooms to extend flowering.

Extend the life of holiday plants by putting them in a cool, bright location. Water them when the soil surface begins to dry.

Potential New Members, YOU are welcome!

We are always looking for new members and have great opportunities for learning at our monthly meetings, at the Tree Farm and at special events.. There are facilities to start plants from seed/clippings. We meet at 7:00pm on the 2nd Monday of each month at the Garden Center on Sisson. For more information, call Joanie at 480-8807.

**Editorial Note:** This version of the Bloomin News  
 was coordinated in conjunction with Joanie  
 Opperman, Editor and David Opperman (Jr. Editor)

As information, Joanie Opperman has been home  
 for a month and doing better each day. Thank you  
 for your thoughts and prayers. She is back in the  
 garden at home getting her “green” thumb back.

# The Titusville Men's Garden Club

Titusville Garden Center, 5275 Sisson Road, Titusville, FL 32780

## INVITATION TO JOIN THE TITUSVILLE MEN'S GARDEN CLUB

**Who We Are:** A non-profit club that enjoys gardening and contributing to our City's beautification and our environment.

**What we Are:** As a part of the Florida Federation of Garden Clubs, we are a partner of the Titusville Garden Club.

**What We Do:** We educate and help each other to enjoy gardening, teach and learn to enjoy plants. We assist others to propagate, grow and distribute trees and plants to non-profit organizations. We participate in voluntary efforts to help Titusville's "Tree City" initiative to plant 2,000 trees per year.

**Where We Meet:** We meet on the second Monday of each month at 7:00 p.m. at the Garden Center, 5275 Sisson Road (south of SR 50 / north of SR 405). We also meet at our Tree Farm near the Titusville Water Maintenance Facility. Members adopt trees and plants to grow and have fun.

**How We Operate:** We presently sponsor an April and an October Tree and Plant Sale. The sales receipts are used to support the Club, purchase materials, and donate plants to the City and other worthy non-profit causes. Some members grow plants to landscape their own homes (all are welcome to do so). With permission from a plant's adoptee, members may take plants for personal use. Dues are \$25.00 annually, due in April.

**Send application below to Titusville Men's Garden Club, P. O. Box 1783, Titusville, FL 32780.**

**For more information, please phone Joanie at 480-8807**
