Chairman's Message - Buck Cowen

Hi fellow gardeners!

First I hope everyone had a Happy Thanksgiving. We wish all a very Merry Christmas and something green stuffed in their stocking. Yes it's me again, coming by way of written text to bring you up to date. And yes you only have three more times to endure my hen scratching. My term is nearly up so you should be thinking who you would like to be your new chairperson.

The farm has received 100 trees! 25 of four varieties, they have been potted and are in the shade area. Thanks to 4 guys Alan, Michael, John, and Tom that got it done. The members are constantly trying to improve the farm and the club. We are few and it may take a little longer to complete some tasks. The important thing is that we keep working for a common goal. Hope to see you at the farm or a meeting. Just Me Buck

DECEMBER IN THE GARDEN

December is normally a dry month with about 2 inches of rain. While we may have heavy dew, lawns will still require about ½ inch of rain or irrigation each week. AZALEAS and CAMELLIAS can suffer bud drop later if not watered as needed. Temperatures during December should have average lows in the low 50's and highs in the 60's and 70's. Nighttime low temperatures may occasionally be in the 40's or even 30's with the possibility of frost or, although infrequent, even a freeze when a cold front moves through. **Make sure the ground is moist before a frost or a freeze.** Be prepared to move ORCHIDS and other cold sensitive plants indoors or provide protection when cold temperatures are predicted.

If not already done, December is the time to cover greenhouses, lath and shade houses with plastic for the winter. Clear 4 to 6 mil polyethylene film provides an inexpensive cover. Check heaters or plan for heating if you expect to protect plants during infrequent freeze periods. Check those plants you bring inside for mites, mealy bugs and other pests.

This is a good month to add or transplant trees, shrubs and other plants and to divide perennials. Because of the cool weather, water loss through foliage will be low and above ground new growth minimal. Start flower and Papaya transplants.

Continue fertilizing hardy annuals and container grown plants monthly. Discontinue fertilizing other outdoor plants except vegetables. Delay any major pruning until after winter. Renew mulch where needed.

Clean, oil and repair garden equipment. Drain gas tanks, change oil, clean and lubricate idle garden equipment and engines. Sharpen and paint tools for next year's use. A bucket of dry sand mixed with a quart of used motor oil makes an excellent long-lasting cleaning device for shovels, trowels and other similar tools. Just push the tool into the sand several times after each use. Hardy annuals that will provide color in your yard and survive our normal winter cold include ALYSSUM, CALENDULA, CLEOME, DIANTHUS, PANSY, PETUNIA, PHLOX, SALVIA, SNAPDRAGON and VERBENA. Remove faded blooms to extend flowering.

Extend the life of holiday plants by putting them in a cool, bright location. Water them when the soil surface begins to dry.

New Members! YOU are welcome!

We are always looking for new members and have great opportunities for learning at our monthly meetings, at the Tree Farm and at special events.. There are facilities to start plants from seed/clippings. We meet at 9:00 am on the 2nd Monday of each month at the Tree Farm, behind Stuart Park. For more information, call Joanie at 480-8807.

COMMUNITY CALENDAR –

Dec 7th - Annual Tree Lighting Ceremony at 6:00pm -- In front of the Titusville City Hall

Dec 8th - 57th Titusville Christmas Parade 6:00pm – Starts at Titusville High, North on U.S 1, through Downtown Titusville

The Titusville Men's Garden Club

Titusville Garden Center, 5275 Sisson Road, Titusville, FL 32780

INVITATION TO JOIN THE TITUSVILLE MEN'S GARDEN CLUB

Who We Are: A non-profit club that enjoys gardening and contributing to our City's beautification and our environment.

What we Are: As a part of the Florida Federation of Garden Clubs, we are a partner of the Titusville Garden Club.

What We Do: We educate and help each other to enjoy gardening, teach and learn to enjoy plants. We assist others to propagate, grow and distribute trees and plants to non-profit organizations. We participate in voluntary efforts to help Titusville's "Tree City" initiative to plant 2,000 trees per year.

Where We Meet: We meet on the second Monday of each month at 7:00 p.m. at the Garden Center, 5275 Sisson Road (south of SR 50 / north of SR 405). We also meet at our Tree Farm near the Titusville Water Maintenance Facility. Members adopt trees and plants to grow and have fun.

How We Operate: We presently sponsor an April and an October Tree and Plant Sale. The sales receipts are used to support the Club, purchase materials, and donate plants to the City and other worthy non-profit causes. Some members grow plants to landscape their own homes (all are welcome to do so). With permission from a plant's adoptee, members may take plants for personal use. Dues are \$25.00 annually, due in April.

Send application below to Titusville Men's Garden Club, P. O. Box 1783, Titusville, FL 32780.

For more information, please phone Joanie at 480-8807
