Chairman's Message

Fellow Gardeners,

This Friday and Saturday October 8th and 9th is our annual fall tree farm sale. We hope all of you will come out and support us. Thank you to all who have worked hard to make this event happen. We will need people in the sales area, members to assist customers, members at the front tables and members in the parking lot to direct parking. Breakfast and lunch will be provided to all participating members. Some of our new plant arrivals include blue daze, yellow lantana, and both coral and pink knockout roses. Can't wait for the sale and hope to see you there. Don't forget to wear your new shirts. Members will purchase the shirts after the sale. Our October meeting is on the 12th.

Regards, Alan

OCTOBER IN THE GARDEN

Nights are slowly turning cooler, and days are shorter and slightly cooler—a relief to us and to our plants.

October normally brings less rain than September, so you will need to watch your lawn, shrubs, annuals and potted plants and water them when needed.

This is the last month to fertilize your lawn, palms and shrubs. If not already done, give shrubs and hedges a final fall pruning. Remove suckers, low limbs and trim or remove unwanted growth.

Any pruning done after mid-October will stimulate new growth that could suffer cold damage this winter. Delay all pruning of vines and fruit trees until mid-winter. Operate sprinkler systems manually to conserve water. Water lawns when grass shows signs of stress.

Renew mulches as needed to conserve moisture during the dryer Fall and Winter months. To assure holiday blooms, relocate POINSETTIAS, CHRISTMAS CACTUS and KALANCHOES so no artificial light will fall on them.

If you expect to plant Winter and Spring bulbs such as TULIPS, CROCUS, DAFFODILS and HYACINTH, this is the time to begin the 12 weeks of refrigeration required by the bulbs in our climate.

If you like to pick your own strawberries, now is the time to start a bed with a bundle of 25 fresh, healthy plants from a nursery or garden center. Varieties that have given good yields in central Florida gardens include Florida 90, Tioga, Dover, Florida Belle and Douglas. They will also do well in full sun in a large wooden barrel, a pyramid, or hanging baskets using a good potting mix. Three

plants in a 10" or 4 in a 12" basket will flourish in full sunshine if given adequate water and fertilizer.

If not already done, give Citrus and grapes a final feeding of special Citrus fertilizer before October 15. Feed cool-season annual plants monthly for winter blooms. Replant flowerbeds and hanging baskets with cool-season plants such as, ALYSSUM, CALENDULA, CLEOME, CHRYSANTHEMUMS, CORNFLOWER, DIANTHUS, GAILLARDIA, GERANIUM, PANSY, PERIWINKLE, PETUNIA, PHLOX, SNAPDRAGON AND VERBENA.

***FERTILIZER INFO: Sharon A.**

The high number in the middle of most fertilizers is the main cause of Lagoon death; and for 3 years or so now they recommend "0" Phosphate, and only slow-release Nitrogen! Fast Nitrogen is also killing our Lagoon. Only apply when rain is not expected, and water down ¼". I know, nag, nag; but I think we all need to do our part to save our resources, as dolphins and manatees and grass are all sick and dying. We are close to reaching a tipping point where all will be dead, and we will have no seafood resources to eat or draw tourists.

Due to the continual flux in COVID19 related precautions please call to confirm these activities are still open to the public.

Florida Native Plant Society – Sea Rocket Chapter

The Sea Rocket Chapter's meetings are held on the 4th Wednesday of the month; gather at 6:30 for socializing, and 7 p.m. to 9 p.m. for program at the

Potential New Members, YOU Are Welcome

We are always looking for new members and have great opportunities for learning at our monthly meetings, at the Tree Farm and at special events. We have facilities to start plants from seeds/ clippings. For more information, Rose at 321-289-8388.

available to answer questions and help with purchases.

Proceeds from the sale enables the club to offer college scholarships to students of Titusville and Astronaut high schools. In addition we offer a scholarship for children to attend Wekiva Springs Summer Camp.

For further information - contact Buck Cowen at 321-537-8262 or Kathryn Woidtke at 321-269-2338.

The Titusville Garden Club Tree Farm

Titusville Garden Center, 5275 Sisson Road, Titusville, FL 32780

Next Meeting: Second Tuesday of the Month, -- 10:00 a.m.
(@ "the Farm" Behind Stuart Park)

INVITATION TO JOIN THE TITUSVILLE GARDEN CLUB TREE FARM

Who We Are: A non-profit club that enjoys gardening and contributing to our City's beautification and our environment.

What we Are: As a part of the Florida Federation of Garden Clubs, we are a partner of the Titusville Garden Club.

What We Do: We educate and help each other to enjoy gardening, teach and learn to enjoy plants. We assist others to propagate, grow and distribute trees and plants to non-profit organizations. We participate in voluntary efforts to help Titusville's "Tree City" initiative to plant 2,000 trees per year.

Where We Meet: We meet on the second Tuesday of each month at 10:00 a.m. at our Tree Farm near the Titusville Water Maintenance Facility, next to Stuart Park. Members adopt trees and plants to grow and have fun.

How We Operate: We presently sponsor an April and an October Tree and Plant Sale. The sales receipts are used to support the Club, purchase materials, and donate plants to the City and other worthy non-profit causes. Some members grow plants to landscape their own homes (all are welcome to do so). With permission from a plant's adoptee, members may take plants for personal use. Dues are \$30.00 annually, due in April.

For more information Phone Rose @ 321-289-8388.
