

Synopsis of Mims Community Group Meeting on May 21, 2019

Thank you to everyone who attended. Good to see you.

At this meeting we discussed the results of the 2019 Florida Legislative Session from the North Brevard point of view. First, what kind of policy bills did each of our local legislators sponsor and co-sponsor? How successful were they in getting these bills passed? Then, we discussed the details of these bills and what they were meant to accomplish. After that, we reviewed the appropriation bill and what appropriations our local legislators were successful in bringing back to Brevard and what did these appropriations fund. Next, we discussed several bills of local interest, such as septic tank inspections, fracking prohibition, texting while driving, and the School Guardian program. We also discussed several appropriations that created Grant Programs that could be used locally. Finally, we discussed several bills that attacked Home Rule.

Don't Forget to contact our local legislators to let them know how you feel. Just pick one subject and talk to them. Otherwise, it is only the special interest lobbyists that they hear.
